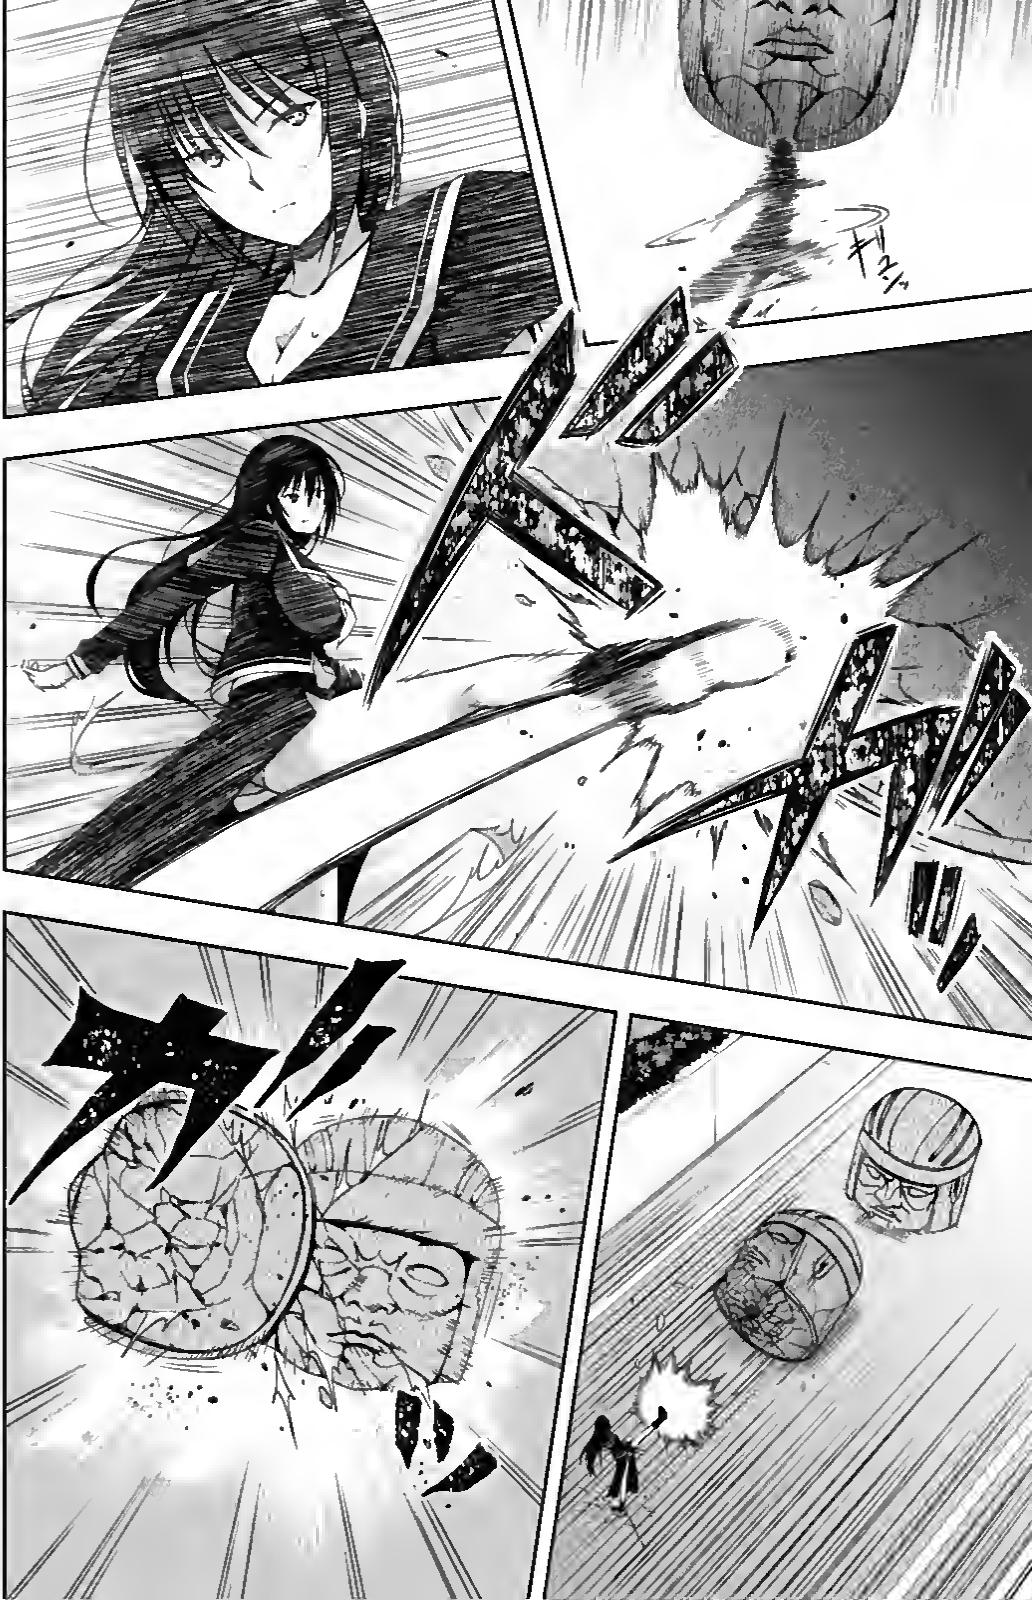
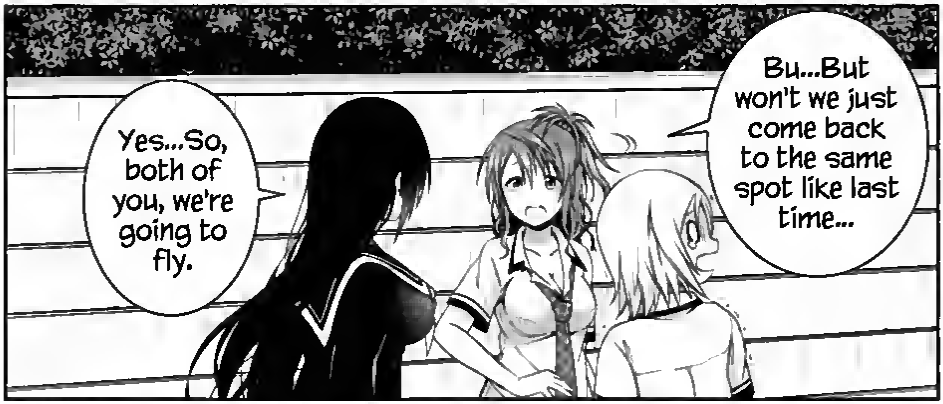
Ugh... This is actually...
pretty heavy!
ぐぐ...

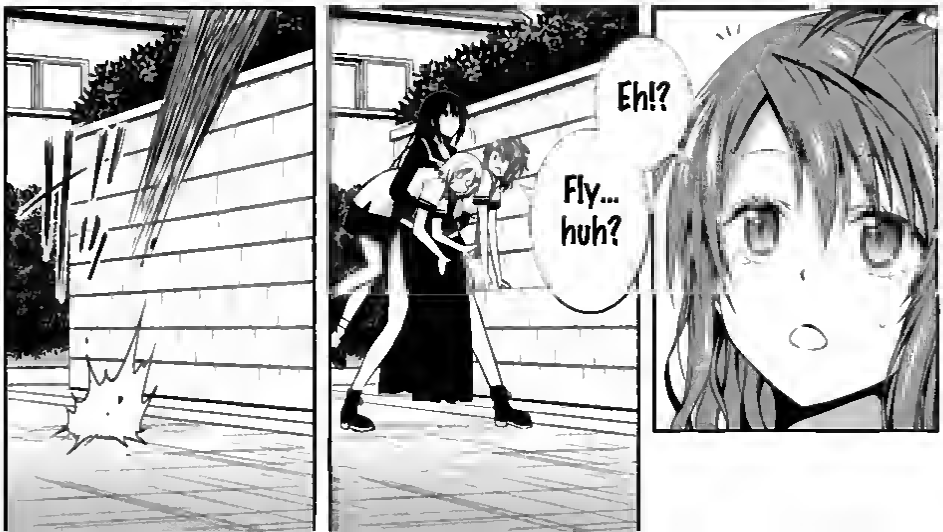


Ya... Yayako-senpai
I thought your powers were sealed...?
Yeah, so doing that just now was pretty straining
Like I thought, my body isn't going to hold
Ah...
Blood...
Pow... What powers? An...And didn't senpai just do something incredible?
Uum well... That's ...
...This noise-

An... Another one!?
No... No way... We're still...
Let's talk later...Let's run for now.

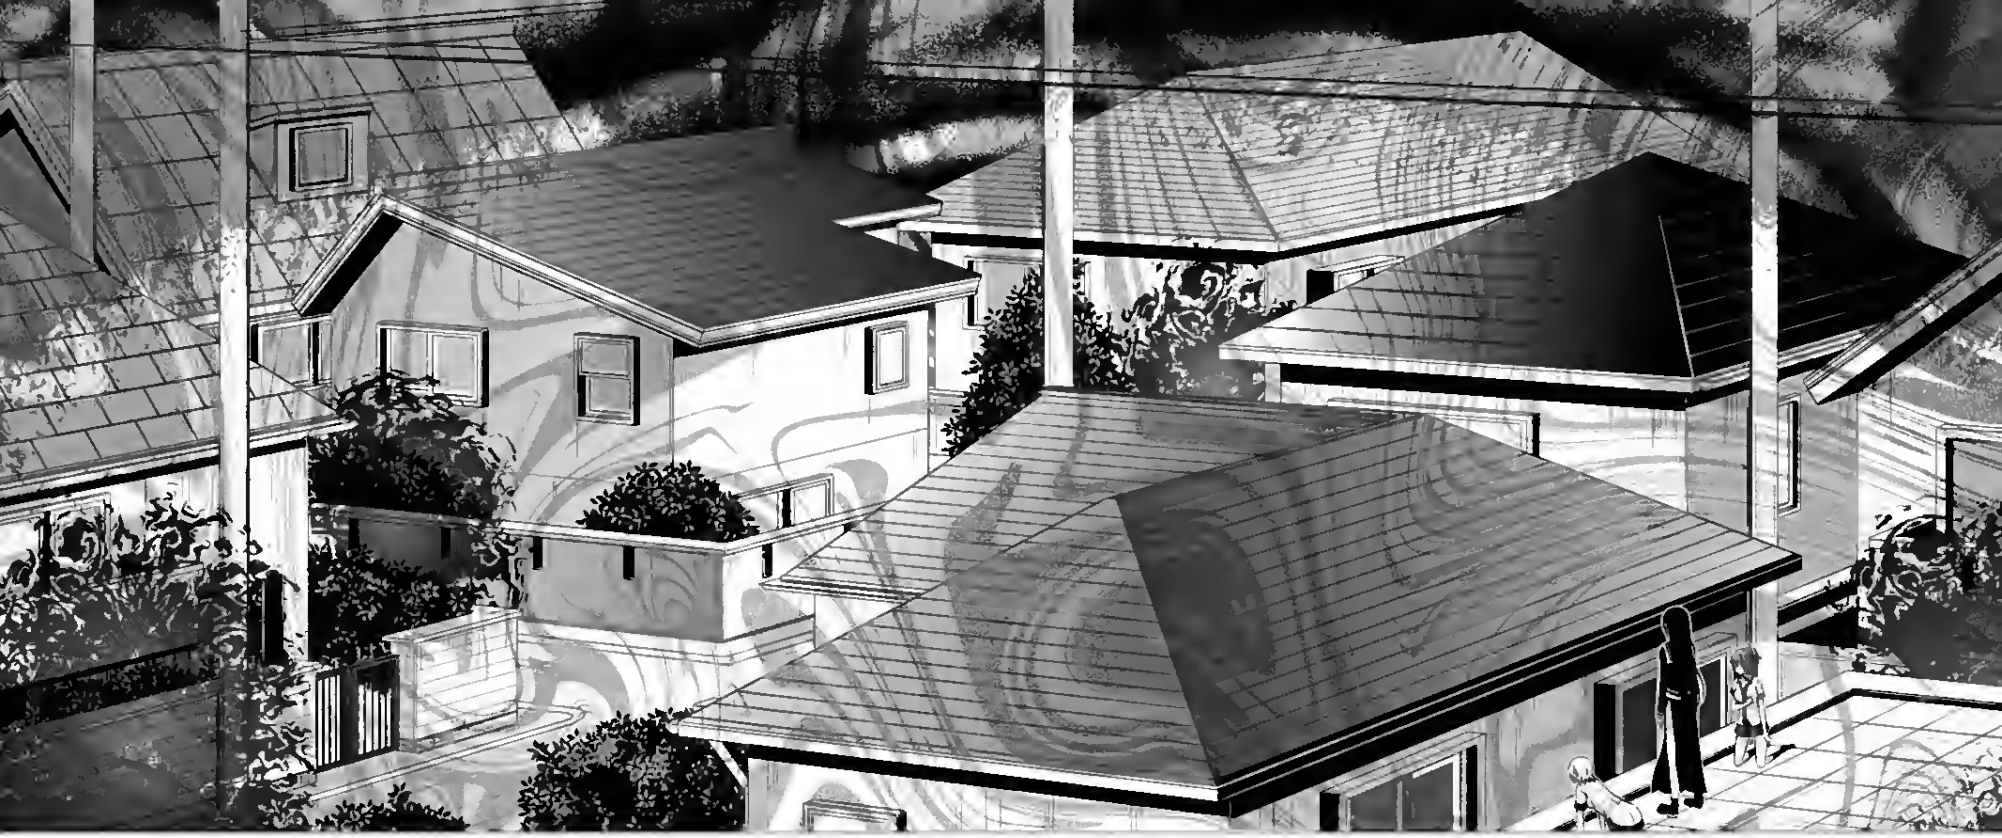


Bu...But won't we just come back to the same spot like last time...
Yes...So, both of you, we're going to fly.

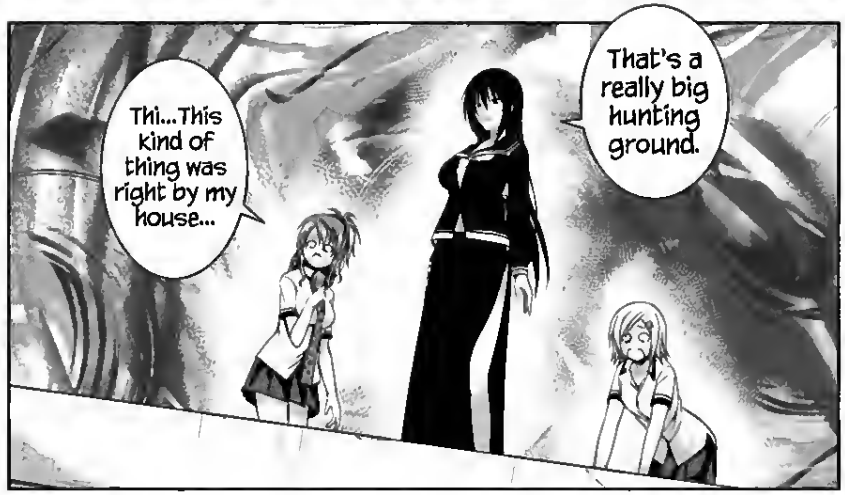


Eh!?
Fly... huh?

Wawa...
!....
Wa... What is this...
I'm okay...More importantly, be careful that you don't slip.
Ya... Yayako-senpai, are you okay!?



I won't last much longer.
Yuuto ...



Thi...This kind of thing was right by my house...
That's a really big hunting ground.

Sorry about this, Yuunagi...I just called on you out of the blue.
A civilian other than Hana-senpai was dragged into this... this is my responsibility.
Don't worry about it, it's an emergency... Rather,
It's not just your fault.
Guys, you're pretty close to the area. Please be careful.

This is the Cross-road?
It looks pretty normal to me...

Roger that. I will scan the perimeter.
However... I feel something bad... Acasia!

In... Infection reaction-
What is it?
Scan complete... Thi...This is.

Pandemic Level.
...When did it get to this...
Yuuto-sa... Master...
Hm...

If it's hard for even senpai, then...The D-part this time is really dangerous.
It's a really powerful hunting ground...It'll be a huge pain to force our way in.
...No good.
Eh... Really?
There is a way to break into the hunting ground,
and to defeat the Carrier...
I... I don't mind that.
Besides, senpai...
However... I'll say this beforehand.
I'll end up causing you even more trouble.

Yuunagi...
I'm basically your sub-ordinate so,
you can feel free to depend on me...
Thank you.
Hau...
Yuunagi's so cute... Here it is.
Give me the data on this incident's Carrier.
What's up with your face!?
An... Anyways. ..Acasia

Hana...

This
obviously
has to be a
dream!

Yayako-senpai!?

Looks like this one- is the main body!
Compared to the ones from earlier... It's on another scale...

Spacetime coordinate lock-on complete

-You're late, Yuuto.
Ka... Kagimori! Everyone!!
Sorry to keep you waiting, Yayako-senpai.
Akane-ga-saki, I'm glad you're okay too.
How's Miya-nagi...?
She's only uncon-cious...

That's perfect. Let's make today seem as if it were all just a dream.
More importantly...We need to take care of this.
Yea... I'll hold back the other Colossal Heads with my Babylon.
Defense is up to you, Yuunagi.

Akane-gasaki, can you hold onto this.
Please be careful.
Y... Yeah.

Here it comes!

What about attacking the main body...?
That's obvious...

OOOOOH!
Asyria's Lens!
Yuunagi-chan,
Senpai!
In the name of Shizumiya Yuunagi, Curator Class Nine,
I hereby release the punishment placed on Kagimori Yuuto.

Yes.
...That's how it is, Yayako-senpai.
Right, we're good now!
Here.

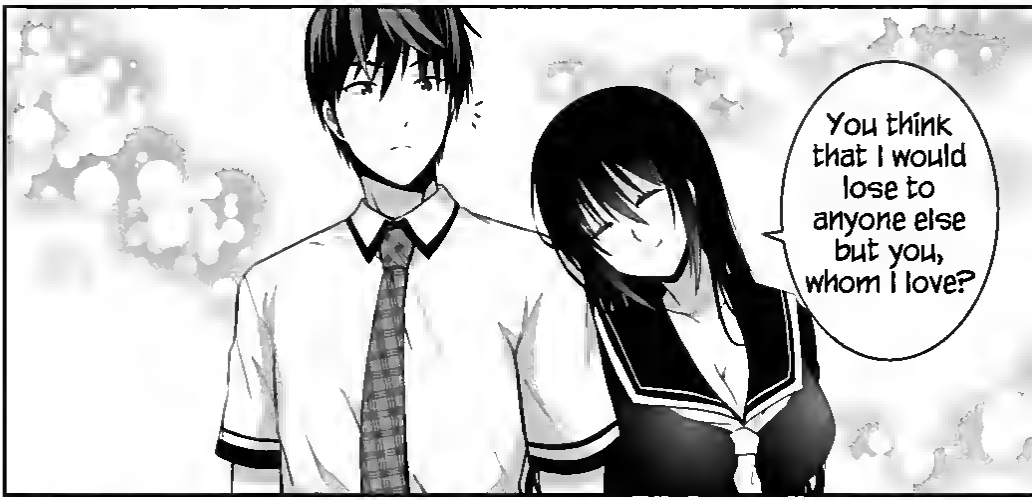
MY HOME-
TOWN-

We're... We're safe now?
Yes. Since the main body has been eradicated, this area and the other carriers...even the victims should go back to normal.
Olmec Colossal Head has been completely eradicated.
Yuunagi-chan?
Hey...Com... Completely eradicated...
I see... Thank god...
This is why I told you that I'd be causing you even more trouble.
You didn't tell me about this!?
Senpai, you guys completely broke another D-parts!?

I was expecting you to have a better solution!
Even I would have come up with something like that!
The infection had spread this far... To turn it back to normal, destroying the main body was the most...
There there... I know! I'll help think of an excuse for you.
Aah gosh! Just how can I get off the hook with Utahime...
My my.
Wha... No way
I don't need you to.

Of course.
I'm glad you're safe.
Good work, Yayako-senpai.



You think that I would lose to anyone else but you, whom I love?

...But Hana's glow.
Was that... Perhaps-
